DESTINATION

Komodo Island

Komodo National Park is located in the centre of the Indonesian archipelago between the islands of Sumbawa and Flores. The World Heritage site is blessed with secluded beaches, amazing coral reefs and crystal clear waters, with over 260 coral species, dolphins, manta rays, turtles, whales and dugongs – one of the best dive regions in the world.

The park is home to wild boars, water buffalos, deer, monkeys and the famous Komodo Dragons – the largest land-dwelling reptile in the world, living up to 50 years and growing up to 3 m long. Their footprints are often seen along pink sandy beaches, or while hiking in the hills with knowledgeable park rangers.

Raja Ampat

The Four Kings

Salawati, Batanta, Waigeo and Misool, surrounded by a myriad of untouched isles with postcard beaches and sheer limestone cliffs – about 1,500 islands. One of the greatest and healthiest coral reefs for its size in the world, with nearly 1,200 species of fish and 550 species of coral, and the most beautiful soft coral jungles.
