Remote and undisturbed, the breathtaking islands of Raja Ampat are a nature lover's paradise. On land, many species of birds of paradise can be seen on island treks or while paddle-boarding close to shore. Wayag is famous for its panoramic views and bays filled with small islands, while local villages offer cultural excursions and some of the warmest hospitality you will ever encounter.

Bursting with colour thanks to incredibly healthy coral, the warm waters are home to reef sharks, manta rays and whale sharks, with some of the best diving and snorkelling in the world.

Komodo & *Flores*

Just west of Flores, the grassy-sloped islands of Komodo National Park offer gentle trekking trails and beautiful beaches. The park is home to the Komodo dragons, the largest living lizards on Earth, found only on Komodo and Rinca.

Dolphins are frequently spotted, and the park lies along a whale migration route. Its vibrant coral reefs are regarded as some of the finest, with world-class diving. Heading east, 17 Islands National Park has huge colonies of flying foxes, colourful coral gardens and crystal-clear water, while Mt. Kelimutu's coloured volcanic lakes and Alor's tribal communities are real highlights.
