VELOCEAN

Liveaboard *Redefined*

The all-aluminium 52-metre scuba diving liveaboard is sophisticatedly designed as a luxurious five-star hotel floating on the ocean. She accommodates up to 18 guests with 24 experienced crew on board, to provide the finest diving adventure in Indonesia with luxurious comfort, a world-class safety standard and high-quality facilities.

Wake up every morning relaxed and ready to explore the Indonesian underwater paradise: Komodo, Alor, the Banda Sea, Raja Ampat and Wakatobi.

Velocean

VELOCEAN

Velocity + *Ocean*

The name ‘Velocean’ is a portmanteau that blends the words Velocity and Ocean. With an all-aluminium hull, deck superstructure and powerful twin marine engines, she cruises at 20 knots with a maximum speed of 22 knots – the fastest diving liveaboard in Indonesia.

That speed means less time in transit and more time in the water: reaching dive sites faster, covering a greater area on a single voyage, and leaving more time to relax. Stabilisers keep the ride smooth and comfortable.

VELOCEAN
